

BECOMING A SUSTAINABLE VENUE

At M&S Bank Arena Liverpool, part of the Liverpool event campus, we want to deliver real impact and action, in line with the UN's Sustainable Development Goals, playing our part in the global fight against climate change. On a local level we want to be a beacon for sustainability and to ensure we offset any negative impact our events and operations may have on the local environment.

We want to always be improving and challenging ourselves. We want to be part of the solution.

OUR ACHIEVEMENTS SO FAR:

Dedicated meat-free catering kiosks situated throughout the arena concourse

100% of our energy comes from renewable sources

We send zero waste to landfill

Monthly donations to local foodbanks and homeless charities through our catering partner Sodexo

Educational and career support for local students and graduates via presentations and site tours and through our partnership with local universities

£60,000 raised and donated to the local community through our Charity Champions and The ACC Liverpool Group Foundation

925 photovoltaic panels provide renewable energy for our venue campus for the next 20 years

Rainwater harvesting across our venues to support with reusable water usage

Signatory of the Net Zero Carbon Events pledge and dedicated to helping the industry reach net zero by 2050 at the latest

We have a dedicated Sustainability Working Group to drive and implement social value initiatives across our venue campus

We are committed to delivering actions and outcomes every year as part of our ongoing social value journey. We will report back on our progress annually and set ourselves new targets in line with our own objectives as well as those of the event industry and local plans and initiatives we have pledged to support.
