

ACCESSIBLE TOILETS

We are committed to providing high quality, clean facilities where everyone can feel safe and respected. That's why we have partnered with LCR Pride Foundation to implement a Toilets for Everybody scheme across our campus.

Toilets for Everybody is a pilot programme that focuses on what facilities are available in any location allowing the end user to make an informed decision as to the use of the space. Toilets for Everybody is licensed and operated by LCR Pride Foundation.

Toilets for Everybody benefit many visitors who come through our doors, including people who may need to be accompanied by a friend or family member of the opposite sex such as; people with disabilities or additional needs, the elderly, and children.

We also have accessible toilets for people with disabilities, and dedicated toilet facilities for men and women throughout the campus.
